# ACOMMODATION

# HOMESTAY

This is a fantastic opportunity to experience life in a real English family.

Living with an English family means that you can have a true English immersion experience as you get the chance to practise your language skills with native speakers outside of class.

All our homestay families are fully vetted and must pass an extensive interview process. We only use host families who have plenty of experience hosting international students.

We spend a lot of time matching students with the right host family to ensure students have the best stay possible.

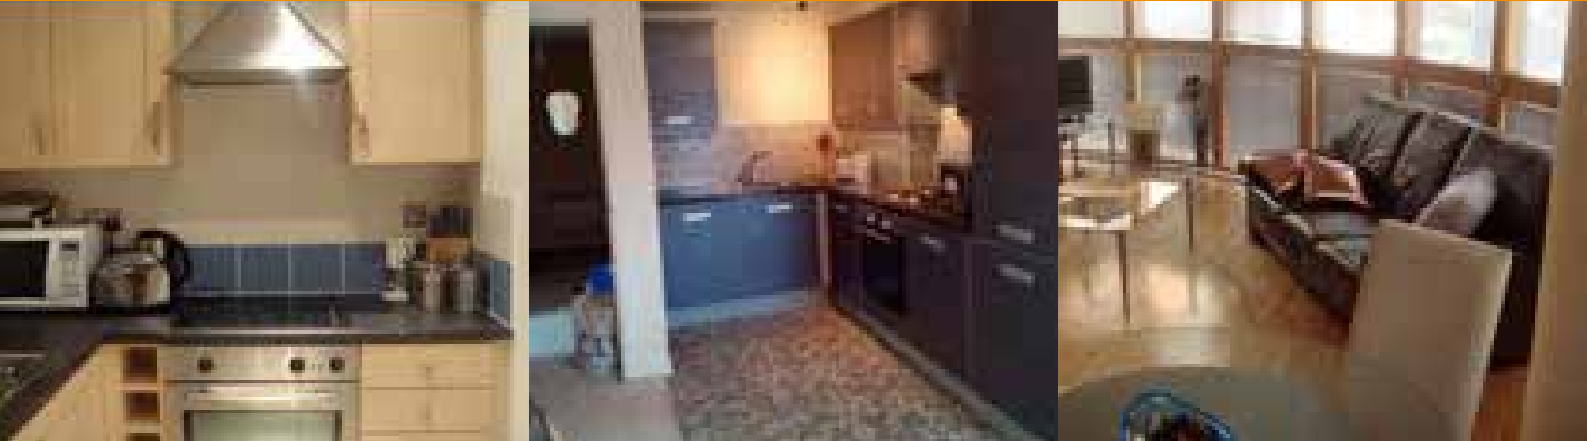

Homestay is divided into two categories - standard and executive - and is available on a full or half board basis.

## **STANDARD ROOM:**

From £130.00 per person/per week.

# PRIVATE RENTALS

If you are planning to stay in Manchester for a long period of time (i.e. over six months) or if you want to live with a friend or partner, then a private rental could be the answer.

You may prefer to stay in one of the high quality apartments available in Manchester city centre. We have apartments with a range of one and two bedroom modern, spacious, practical short stay apartments in or close to Manchester city centre that are available for periods of a few days to a few months.

Apartments allows you to be more independent, eating in or going out or simply enjoying a night in in these beautifully furnished flats. These apartments are available both for short and long stays.

There are lots of options available to suit all requirements and budgets.

Our apartments offer flexibility and exceptional value for people visiting Manchester whether for business, for a holiday, when visiting friends and family or for other reasons.

# STUDENT APARTMENTS AND SHARED HOUSES

In addition to regular rooms in shared houses, we offer our students exclusive use of a student apartment.

The apartment is located 20 minutes away from the school and contains three double bedrooms with shared bathroom and kitchen facilities. Recently renovated, the apartment is an extremely affordable option for students coming to study with us.

This apartment is only occupied by our students so you can get to know your flat-mates before you arrive - we also try to keep a mix of nationalities in the apartment so that you can speak only English at home.

This is ideal for people who are looking for a low-cost option but want the security of renting from a trusted source.

The apartment is owned by one of our business partners in Manchester so can be rented on both a long-term and short-term basis.

## **STANDARD ROOM:**

- Shared houses from £80 per person/per week (plus bills)
- Student apartment £85 per person/per week (including bills)

# STUDENT RESIDENCE

This is ideal for those who want to live in a young and vibrant environment with other students. Our student residences are located close to the city centre so it is easy to get to the school. This type of accommodation offers excellent value for money as students are close to lots of amenities and can save on transport costs.

Student residences are ideal for people who want to have some freedom, as you can come and go as you please and also have the opportunity to cook for yourself.

Living in a residence is perfect for people who love to socialise, as you will typically live with 5-6 other people and very often they will be from all over the world, so you live in a truly international setting!

Student residences have a private bedroom with en-suite bathroom and shared kitchen and living room.

## **STANDARD ROOM:**

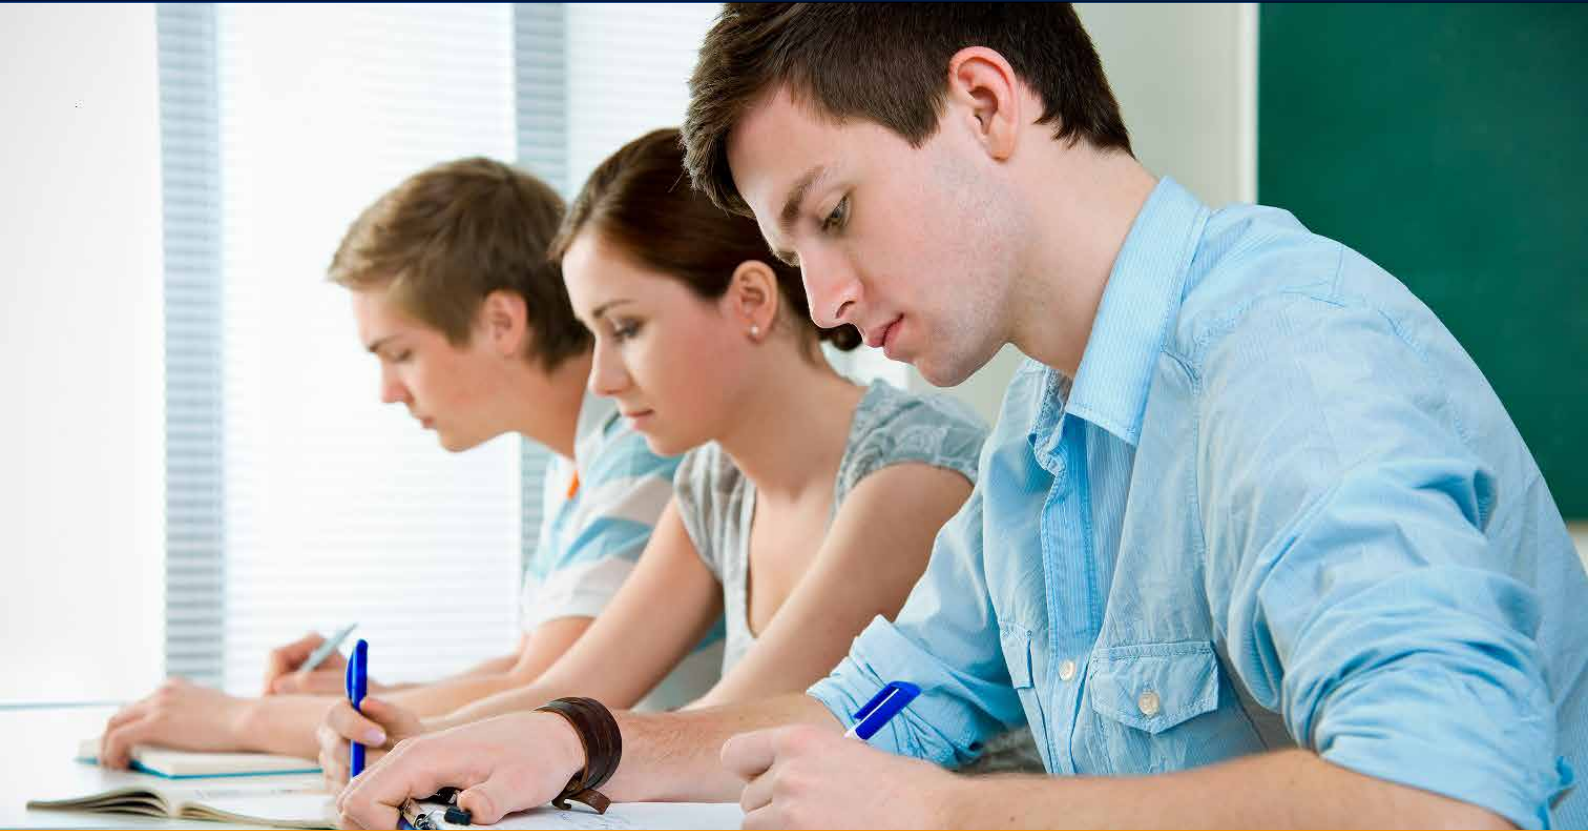

From £105.00 per person/per week.
